

## **Airnetz starts Mumbai Pune (Hinjewadi) Helicopter Service**

*(Mumbai For Immediate Release)* To serve the corporate segment of the jet-setting Mumbai Pune corridor, Airnetz Aviation ([www.airnetz.com](http://www.airnetz.com)) has started helicopter services to Hinjewadi in Pune from Mumbai. Helicopters will land at a Helipad in Pune located only 5 minutes of driving distance from the Rajiv Gandhi International InfoTech Park and 15 minutes drive from the city's other corporate areas. In Mumbai, the helicopter will take off from the Juhu Aerodrome. The service is targeted at time conscious top management and clients of corporate dealing frequently with Mumbai and Pune.

"Pune does not have an international airport and the Lohegaon airport is far away from the city's action which makes it infeasible for people to travel to Mumbai by air. Express highway is the fastest way to reach Pune but due to the traffic in Mumbai and express highway itself, the journey sometimes takes more than 4 hours. This wastes the entire day in traveling for executives if they have to visit Pune for work and come back." says Atul Khekade, CEO of Airnetz.

"Executives and clients of various companies in Pune have to drive to Pune from Chhatrapati Shivaji International Airport when they are tired of the long international journey and jetlagged. With this service, they can directly fly to Pune in less than 40 minutes." says Khekade. "This helicopter service is a relief for those people who had to worry about traveling for additional 4 hours after a 15-20 hour long air travel." adds Ritesh Kakkad, Airnetz director.

The service starts from Rs. 1,10,000 from single engine helicopters and goes to Rs. 2,15,000 for bigger helicopters. The price is for return journey for 3 passengers.
